

DA 1

Panasonic
Homes & Living

BACKEND DEV JS ESSENTIAL ARRAY

In JS ARRAY You can store any values like example
let arr = [1, 2, 3, "Key" { }]
 ↓ ↓
 number string object

Arrow Functions can also be
use in pure JS

Panasonic

Homes & Living

If we don't want to
change the value of objects
we can Objectfreeze (,)

name
of
our
obj

Number of parameters of a
function, called function's length
